Re: Petroleum Additives Panel Health Environmental and Regulatory Task Group HPV Challenge Final Submission for the Polybutylene Succinic Anhydride Category

To Whom It May Concern:

On November 26, 2002, the American Chemistry Council, Petroleum Additives Panel, Health, Environmental and Regulatory Task Group (HERTG) submitted a test plan and supporting robust summaries for the following two chemicals in the polybutylene succinic anhydride category:

- 2,5-Furandione, dihydro-, monopolyisobutylene derivs., (CAS #67762-77-0), referred to as "Polyisobutylene succinic anhydride".
- 2,5-Furandione, dihydro-, monopolybutenyl derivs., (CAS #67762-79-2), referred to as "Polybutenyl succinic anhydride".

The HERTG has completed the proposed testing described in the test plan for the polybutylene succinic anhydride category. Attached to this letter are the HERTG's final HPV submission of the category analysis document and corresponding robust summaries which are submitted to fulfill the HERTG's HPV commitment for the polybutylene succinic anhydride category.

If you have any questions or comments, please contact me at (703) 741-5607 or via email at Sarah_McLallen@americanchemistry.com.

Sincerely yours,

Sarah Lottus McLallen
Manager, HERTG
